
SUPPLIER PRODUCT ASSURANCE REQUIREMENTS

Purpose

This document establishes Supplier Product and or Service Quality Assurance Requirements.

Unless otherwise specified, requirements referenced herein shall be in effect and binding from the date of purchase contract.

Definition and Abbreviation

A. ORDER means the purchase order and or other written and binding contract with Supplier and or Vendor (Seller).

B. BUYER or PSP means Precision Swiss Products, Inc.

C. SUPPLIER and or VENDOR means legal entity that contracts with Buyer under this Supplier Product Assurance Requirements.

D. SPAR means Supplier Product Assurance Requirements.

E. Special Processes are those yielding products which cannot be adequately evaluated for conformance through inspection or non-destructive testing. These include welding, plating, heat treating, bonding, soldering and so on.

Special processes are evaluated through one or more of the following processes: certification, training records of personnel involved in the process, process procedures or work instruction and destructive testing of samples.

SPAR-1 Prohibited Practices

Supplier shall not implement any changes to the purchased product and or process without prior notification to Buyer and written approval by Buyer. Changes can include but are not limited to product specification, product identification, material, processes.

Supplier shall not make any changes in product design, composition, configuration (including fit form and function), material or fabrication without prior approval by Buyer in writing.

SPAR-2 Unauthorized Submittal of Production Parts

When the order requires Buyer acceptance of first article, Supplier shall not submit part from production run prior to Buyer's acceptance of first article.

SPAR-3 Responsibility for Conformance

Purchased items and or processes must be certified to purchase order requirements.

Product must be inspected prior to shipping and meet specified requirements.

If purchased items and or processes are outsourced Supplier must request a written approval from buyer; and all SPAR apply to sub-tier Supplier.

Certificate of conformance is required for all purchased processes and or product stating that the purchase order specific requirements have been met.

SPAR-4 Documentation

Buyer may refuse to accept items delivered under the Order if Supplier fails to submit the certification, test data or reports specified in the Order.

All records that are created by and/or retained by vendor/suppliers shall be controlled and identified in such way to allow for traceability to the purchased service and or process, cross-reference customer purchase order and or job number.

All records shall be stored in such way to allow for timely retrieval, prevent damage and ensure legibility.

SPAR-5 Record Retention

Vendor/supplier must keep records and or documents involving the purchased service and or process for a minimum of 10 years unless otherwise specified.

Documents must be disposed of after retention time. Disposition can include but is not limited to shredding, burning or deletion of soft copies.

SPAR-6 Certification of Conformance

With each shipment of items covered by this Order, Supplier shall submit a certificate of conformance, signed by a responsible representative, which shall constitute a representation by supplier that:

a) Material and/or services used are those which have been specified by Buyer. All purchased material must be supported with a certificate stating the material chemical or physical composition, verification of origin of material and any other required evidence of conformance of such items to applicable specifications noted on purchase contract and/or Customer drawing;

b) Processes used to fulfill the purchased contract were in compliance with applicable specifications noted on the purchase contract and/or Customer drawing;

c) Certification furnished under the terms of the Order shall be supported by test records, and data is subject to audit by Buyer.

In case of drop shipment, a copy of the Certificate of Conformance shall accompany the shipment and a second copy shall be sent to the Buyer at time of shipment.

SUPPLIER PRODUCT ASSURANCE REQUIREMENTS

SPAR-7 Corrective Action Request

Buyer will request corrective action from Supplier when a quality problem exists. Supplier shall respond within 7 business days. Corrective action shall include the following information: analysis of cause, immediate action taken and long term corrective action taken.

SPAR-8 Standards of Workmanship

Supplier must maintain written standards of workmanship directly applicable to the nature and level of work performed under this Order. A copy shall be supplied to Buyer upon request. Buyer reserves the right to perform inprocess inspections and or audits at any time during the life of the purchase order.

All personnel involved in the purchased process must be qualified.

SPAR-9 Nonconformance

Vendor/Supplier must notify PSP of any nonconformance, changes in product and or processes, and arrange for approval. Supplier shall initiate a discrepancy report for any departure from the drawing and/or purchase requirement.

SPAR-10 Access to Facilities

Supplier grants PSP, PSP's job related customers, and regulatory authorities right of access to all facilities and records involved in the Order. Seller will notify the vendor/supplier if onsite inspection is required and will state the verification arrangements.

SPAR-11 Lot control and Product and/or Service Identification

Product must be clearly identified and separated according to purchase requirements listed on the purchase contract. Minimum identification requirements are: part number, revision letter, lot number. Items furnished under this Order must be identified on the smallest unit packaged.

SPAR-12 Quality System

Supplier shall maintain a quality system that complies at a minimum with ISO 9001. All equipment used in the purchased process and/or for the purchased item must be calibrated and the calibration system shall be maintained. Waivers to quality system requirements are not valid unless obtained in writing from Buyer. Supplier's quality system may be subject to audit by Buyer's Quality Representative.

SPAR-13 Packaging and Shipping

Unless otherwise specified in the purchase contract, Supplier shall package all material in a manner to ensure protection against cross contamination, product mix-up and/or exposure to foreign objects, corrosion, oxidation, deterioration. Furthermore, all product shipped from your facility must be packaged in a way to preserve the conformity and integrity of the product, protection from environmental conditions (such as extreme temperature and water) during storage, handling and delivery to the intended destination.

SPAR-14 Flow Down

Supplier shall flow down this requirement to subtier Suppliers.
